Chios Care Link Suite					192114

Which seat suits my toilet?

Check the table to see which seats are compatible with your toilet model. Many toilets have multiple seat options, while others suit their own seat only.

Refer to the following pages for details of each seat.

Soft close

All Seima toilet seats are soft closing, except Care toilet seats which cannot be soft-close by regulation.

Quick release – easy to remove and clean

All wall faced and in-wall toilet suites have quick-release seats that locate onto stainless steel pins on the pan.

This design makes it easy to remove the seat to clean the toilet pan and seat easily.

The Chios CC seat also has a quick-release mechanism.

SEIMA

kitchen + laundry + bathroom ware

Please note

- Installation shall be in accordance with AS/NZS3500.
- All measurements are in millimetres. Height dimensions are to base of pan. Make allowance for bedding.
- Bedding: Pan may be bedded with cement base or using silicone sealant. Fix pan to floor using a sand cement mixture of 3:1 to a depth of 60mm. Do not use lime or fast-drying cement.

- Bracket fixing: The pan should be bedded with silicone sealant and fixed with the brackets supplied.
- Do NOT use epoxy type adhesives.
- Dimensions are nominal and subject to normal ceramic manufacturing variations.
- Specifications may vary without notice as part of our continuous improvement practices.
- Clean with a damp cloth. Do not use abrasive cleaners, liquids or pastes.

The Deluxe, Slim, Flat and Classic seats below suit many toilet models. Please refer to the table on page 1.
